# MUSICA

Dedicated to those who want to enjoy an espresso that tastes like it comes from a bar at home, in the office, in small communities and in b&bs. Discover the advantages

*Dedicata a chi desidera l'espresso come quello del bar anche a casa, in ufficio, nelle piccole comunità e nei b&b.*  
Scopri i vantaggi.

Musica is a professional coffee machine, extremely simple to use even for non-expert coffee lovers. The incorporated technologies allow optimal coffee extraction and create a great cup of cappuccino.

*Musica è una macchina professionale ed estremamente semplice da usare anche da chi non ha mai preparato un caffè. Le tecnologie che incorpora, infatti, permettono di estrarre un ottimo caffè e realizzare un perfetto cappuccino.*

Musica can brew coffee and froth milk contemporaneously thanks to its professional components.

The dispensing group is thermally controlled and equipped with a pre-infusion system that allows the extraction of all the coffee's distinctive substances. The water temperature remains constant thanks to the efficient heat exchanger. The boiler is insulated, guaranteeing energy saving and high steam capacity to froth milk. Through the visible pressure gauge, the user can check the boiler's pressure.

The hot water wand, equipped with a programmable volumetric dosing system, allows the user to prepare many infusions in few seconds. The portafilter is professional and ergonomic, just like the practical steam slide lever.

Musica is available in two versions: with a water tank or with a direct connection. It's also possible to choose from many interesting options such as the steam wand to froth milk quickly and easily, the coffee pod kit, and the Teflon portafilter for better maintenance, also available in leather.

The professional user can also customize the Musica with two exceptional solutions: the rotary pack and the professional pack. The rotary pack comprehends a series of solutions able to improve the machine's performance further. The kit includes a professional rotational pump guaranteeing even more consistent extractions and major durability, and the professional adjustable pressure gauge assures superior precision. It also includes one single and one double portafilter. The professional pack instead equips one professional pressure gauge and two portafilters.

Musica può erogare caffè e montare il latte per il cappuccino contemporaneamente grazie ai suoi componenti professionali.

Body material	Stainless steel
Colors	<ul style="list-style-type: none"> <li>● Black (standard version)</li> <li>● Led</li> </ul>
Boiler Total capacity	2lt
Programmable boiler temperature	Included
Boiler Safety valve	Included
Boiler No-vacuum valve	Included
Boiler Automatic water filling	Included
